

GOOD SPORTS PROGRAM

LEVEL 2

We are Australia's largest health initiative in community sport. We work with clubs at every level to set them up for success to create a healthier club environment.

Our three-step accreditation program is a simple game plan for improving the wellbeing of your club. From your rookie induction (level 1) to taking action (level 2), and planning for long-term success (level 3), our team will take you through the program step-by-step.

LEVEL 2

This level is all about taking the learnings from level 1 and using them in the management of alcohol-related activities in the club. Level 2 assists clubs by putting in place a range of practices on responsible alcohol management. Topics covered in this level include having food available when alcohol is around, providing safe transport options to members and guests, and having a responsible revenue generation strategy in place.

When these learnings are put into place they help clubs develop a healthy culture, inclusive of young people and families, whilst providing a duty of care to members and guests.
