

GOOD SPORTS PROGRAM

LEVEL 3

We are Australia's largest health initiative in community sport. We work with clubs at every level to set them up for success to create a healthier club environment.

Our three-step accreditation program is a simple game plan for improving the wellbeing of your club. From your rookie induction (level 1) to taking action (level 2), and planning for long-term success (level 3), our team will take you through the program step-by-step.

LEVEL 3

Level 3 puts everything into practice from levels 1 and 2 to create a comprehensive alcohol management policy for the club. The policy is developed in level 3 because it is important that clubs change their alcohol management practices before the document is written. This ensures the policy is embedded into management and culture, making the operating procedures sustainable.

By completing level 3, clubs have reached the top of the Good Sports program and will continue to maintain their level 3 status, opening up opportunities for more participants, spectators and sponsors, along with a vastly improved environment for children and families.

WHAT'S IN LEVEL 3?

OBJECTIVES

Clubs will fulfill the following main objectives on completion of level 3:

- Increased revenue
- Reducing alcohol-related incidents (including anti-social behaviour and incidental injury)
- Eliminating the need for drink driving
- Providing a safe and healthy club environment
- Increased membership
